All-In-One
Interactive Print Board Solution

- Interactive Board
- Plain Paper Output Electronic Print Board
- White Board
- Projector Screen

Ideal for
- Meeting
- Scheduling
- Training
- Brainstorming
- Real-time Communication
- Creative Presentations

Think It

Sharing ideas at seminars, lectures, and other gatherings presents a communications challenge. An interactive Panaboard™ from Panasonic increases audience attention and participation.

Write It

Helps presenters give clear notes on the meeting to everyone, increasing efficiency and reducing meeting time. You can capture and save your hand-written notes on your presentations onto your PC for future distribution. It is not only an interactive board, but also an electronic print board. This offers presenters an opportunity to provide clear notes on the meeting to everyone, increasing efficiency and reducing meeting time. You can capture and save your hand-written notes on your presentations onto your PC for future distribution.

Print It

The Interactive Panaboard™ comes complete with an integrated printer for easy printing with multiple copies. With an optional Interface Kit, you can print your PC data on the Panaboard's printer.

Share It

Today's ever-changing business environment requires effective communication and quick decision making tools. The KX-BP800 allows you to open up your meetings and presentations to your business colleagues at locations around the world. Your presentations and meeting notes can be reproduced at remote locations simultaneously, thereby offering a cost effective global teleconference solution.

By projecting images from your computer onto the KX-BP800 you can control all applications for Windows® using the included electronic pen right at the board just as you would use a mouse at your desktop.

Incorporates Ultrasonic and Infrared technology to accurately sense screen position.

Can save meeting notes to computer files.

The KX-BP800 can be used as a projector screen, and notes from the discussion can be written right on the image.

Easy-to-Use colorful electronic pens can help emphasize critical items.

Helps presenters give clear notes on the meeting to everyone, whether they attend meeting on-site or remotely.

The Advanced Technology of Panasonic's KX-BP800

Remote PC Operation
The KX-BP800's electronic pen can be used just like a mouse to control all computer applications. Meeting notes and drawings can be saved to the computer, then printed or e-mailed for easy distribution.

Pointing Technology
The KX-BP800 incorporates the Ultrasonic and Infrared technologies for the pointing system.

Plain Paper Type Electronic Board
Just like a regular electronic whiteboard, you can also make notes on the KX-BP800. When you need to modify your notes, just use the included eraser and make the changes. You can then print out your notes on the built-in printer.

Colorful Electronic Pens
Simply select one of the included electronic pens and write your notes over the projected image. This can help you focus on important words to emphasize the critical issues. With the enclosed eraser you can erase these notes as the ideas change.

Optional Stand and Wall-Mounting Kit
The KX-BP800 can be wall mounted or used with a stand. (Both items are an option.)

High-Quality White Screen
The screen displays crisp data and video images without light reflections and shadows.

KX-BP800's User-friendly utility software

The KX-BP800 comes with utility software that allows you to quickly open spreadsheets and documents in your existing software applications for use in a meeting. Simply press on the KX-BP800 surface with the electronic pen and you can control your applications for Windows® and other multimedia materials projected onto the board. This capability expands the usage of your PC to be effectively used in meetings.

Toolbar is conveniently displayed on the interactive Panaboard

Easily select between modes

Projector Mode

You can control all applications for Windows® using the electronic pen right on the board just as you would use a mouse at your computer.

Whiteboard Mode

Just like a regular whiteboard, you can also make notes on the KX-BP800. When you need to modify your notes, just pick up the eraser and make the changes.

WHERE GOOD IDEAS GO TO GREAT USE.

Today's ever-changing business environment requires effective communication and quick decision making tools. Our new KX-BP800 Interactive Panaboard™ can support your needs by opening your meetings and presentations to your business colleagues at locations around the world, thereby offering a cost effective and real-time global teleconference solution. The KX-BP800 can also serve as a projector screen, allowing you to project images from your computer.

But here's the best part. You can control your applications for Windows® using an electronic pen right on the board just as you would use a mouse at your computer. So, whether your requirements call for training, global teleconferencing, or affordable brainstorming solution, the KX-BP800 offers you the ideal solution.
